

MASTER OF Healthcare Management (MHCM)

OVERVIEW

Take your knowledge of the healthcare industry to the next level with a Master of Healthcare Management from AIU®. At AIU you can learn to look at the healthcare industry as leaders and top executives do. Our multi-disciplinary curriculum is specifically designed to better prepare students who want to take on more responsibility in this complex and ever-changing industry.

CURRICULUM INCLUDES

AIU's Master of Healthcare Management program is designed for busy professionals. You won't just study advanced topics in healthcare, you'll get a comprehensive, holistic understanding of how the healthcare industry works. This intensive 48-credit program covers global, historical, organizational and operational perspectives across multiple disciplines such as law, marketing, business, government, finance, accounting, ethics and technology.

- **Healthcare Administration** offers students an overview of the healthcare delivery system in the United States. Topics include composition, function, and interrelationships of organizations and professional groups within the system.
- **Healthcare Leadership and Management** examines topics such as strategic planning, organizational design and change, departmental interaction, team building, operational budgets and ethics in healthcare.
- **Healthcare Strategies** focuses on planning and strategic development of healthcare organizations.
- **Capstone—Strategic Management for Healthcare** gives students the opportunity to apply knowledge they've learned throughout the program. During this course the class will analyze situations and develop strategies that address issues with multiple stakeholders while abiding by the governing principles of healthcare management derived from the program.

MASTER OF **Healthcare Management** (MHCM)

The AIU Master of Healthcare Management is a highly-focused degree program that allows students to study healthcare management at an advanced level.

INDUSTRY-FOCUSED CURRICULUM

Students will get an opportunity to work through challenging scenarios common to healthcare-related organizations such as hospitals, nursing homes, insurance companies and government agencies. By studying advanced topics in healthcare management, students can learn a comprehensive core of specialized knowledge and skills needed for healthcare management.

TAUGHT BY INDUSTRY SPECIALISTS

AIU's MHCM program is taught by a team of industry

specialists who bring their real-world perspectives into the classroom. This approach can help students better understand the qualities and skills sought in today's fast-changing healthcare industry.

ABOUT THE ACCREDITATION COUNCIL FOR BUSINESS SCHOOLS AND PROGRAMS (ACBSP)

The ACBSP accreditation means that AIU's Business degree programs meet the rigorous standards of this leading accreditation association. It helps ensure that what we teach is industry-current and industry-relevant in today's business environment and can make your degree more meaningful in the marketplace.

OUTCOMES
